PETITION TO REGULATE LIGHT-DUTY VEHICLE IDLING ON SCHOOL PROPERTY IN STATE OF CALIFORNIA

The State of California regulates the idling of vehicles 10,000 lbs. or heavier – heavy-duty commercial diesel trucks, buses and school buses. Light-duty vehicles – cars, SUVs, vans, pickup trucks – are <u>not</u> regulated for idling in California (as they are in seven other U.S. states). IDLE-FREE CALIFORNIA ADVOCATES TO REGULATE THE IDLING OF VEHICLES UNDER 10,000 LBS. <u>ON SCHOOL PROPERTY</u> – TO REDUCE CARBON EMISSIONS, CONSERVE ENERGY AND MOST IMPORTANTLY, TO PROTECT STUDENT HEALTH.
